PROFILE

Computer Science and Engineering student specializing in Data Science, currently pursuing 3rd semester at Ballari Institute of Technology and Management (BITM). Interested in Artificial Intelligence, Data Science, Machine Learning, programming, and software development.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering (Data Science) **2025 – Present**
Ballari Institute of Technology and Management (BITM), Vijayanagara, Karnataka

- Currently pursuing 3rd semester.
- Developing knowledge in programming, data structures, artificial intelligence, data science, and software development.

TECHNICAL SKILLS

Programming Languages	C, Python, Java
Data Science / AI Core Concepts	Data Science, Artificial Intelligence, Machine Learning
Tools	Data Structures, Digital Logic, Object-Oriented Programming
	Git, GitHub, Visual Studio Code, LaTeX

PROJECTS

Smart Parking System *Arduino / IoT*

- Designed a smart parking system for real-time parking slot availability.
- Used sensors and Arduino-based control to detect available parking spaces.
- Proposed the system to reduce parking-search time and improve parking management.

Gas Leakage Detector *IoT / Safety System*

- Designed a gas leakage detection system for hostel and household applications.
- Used design-thinking methods including empathy mapping and the 5 Whys method.
- Proposed an alert mechanism to improve safety during gas leakage incidents.

Regenerative Energy Storage System Using Supercapacitor *Mini Project*

- Developed a prototype demonstrating energy storage using a supercapacitor.
- Used a DC motor, battery, supercapacitor, LED, and switch to demonstrate energy transfer.
- Explored the concept of regenerative braking and energy recovery for electric vehicles.

AREAS OF INTEREST

Artificial Intelligence | Data Science | Machine Learning | Software Development

STRENGTHS

- Problem solving and logical thinking
- Willingness to learn new technologies
- Teamwork and collaboration
- Project development and presentation

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
